SOUTH STRALIA

STATISTICAL REGISTER.

1947-48.

Compild from Official Records

I A. W. BOWDEN, A.I.A.,
Government Statist, &c.

By A ORITY: K. M. STEVENSON, Government Printer, Adelaide.

1950.

Statistical Register of South Australia, 1947-48

PREFACE.

The Statistical Register is divided into five parts as follows:—

Part I.—Social—Administration, Justice, Education, Hospitals, Charities, etc.
II.—Population and Vital
III.—Finance—State, Local Government, Banking, etc.
IV.—Trade, Transport and Communication.
V.—Production

A Statistical Summary of South Australia for the years 1836 to date inclusive is attached a the end of the volume.

Certain returns were omitted from issues during the war because of staff and paper shortages but a number have been included again in recent issues. Some will not be resumed until 1948–49 or later and these are marked B in Index. Information for previous years is shown in previous years' issues, and certain information is shown in other departmental reports, such as Budget Papers and Reports of the Education, Police, Hospitals, etc., Departments.

Since in most cases considerations of space do not permit of a verbal analysis of the figures, it has been necessary in certain tables to append explanatory notes at the bottom of the page. Careful attention is drawn to these notes since they will generally be of considerable assistance in interpreting the published figures.

My thanks are tendered to the various heads of State and Commonwealth Departments for their co-operation in furnishing statistical data, often at considerable inconvenience.

I desire also to express my appreciation of the services of Mr. H. L. Semmens, Assistant Government Statist, and of the staff of compilers and other officers for their careful attention to intricate details in the compilation of the various sections of this volume.

18th July, 1950. A. W. BOWDEN, Government Statist, etc.

CURRENCY VALUES.

Oversea Imports for 1947-1948 are recorded in Australian currency, following the 1947 Amendment to the Commonwealth Customs Act, 1901-1936.

The full definition is printed at head of table 12. For previous years they were recorded in British Currency, though strictly speaking they were British currency plus 10 per cent.

Exports are shown in Australian currency, the full definition being printed at head of table 13. (Ships' Stores are shown in table 11 but are excluded from all other returns.)

TRADE WITH OVERSEA COUNTRIES (DIRECT).

DIRECT OVERSEA IMPORTS, 1947-1948.

(For Alphabetical Index to Items, see page 19).

No. 12.—Direct Oversea Imports into the State of South Australia for the Year ended 30th June, 1948.

NOTE.—With the exception of Great Britain, New Zealand, and Australia, and in cases where a single country is concerned only those countries are shown under each article where the value of imports exceeds £100 during any year.
In all cases where an item was not imported during the period, classification number of the item has been omitted from following table.

Value of Imports.—The value of goods imported from countries beyond Australia is recorded in Australian currency and represents the amount on which duty payable or would be payable if duty were *ad valorem*.

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit; where the cental is used, the unit equals 100 pounds avoirdupois. Where imports have been declared in packages without an indication being given of the number, capacity or weight, of the articles imported, the values only have been inserted.

N.E.I. means " Not elsewhere included ".

Import Duties.—Duties charged on imports into South Australia are collected by the Commonwealth of Australia under various Acts.

DIRECT OVERSEA EXPORTS, 1947-48.

No. 13.—RETURN showing Direct Oversea Exports from the State of South Australia for the Year, 1948.

(For Alphabetical Index to Items see page 19.)

NOTE.—In all cases where an item was not exported during the year, the classification number of the item has been omitted from the following table.

Value of Exports.—The value of goods exported (including cost of containers) is recorded in Australian currency and is generally the value in the principal markets of the Commonwealth in the ordinary commercial acceptation of the term, except for the following commodities, concerning which an alteration in the method of valuation of exports was made as follows :—

From 1st July, 1929. Sugar (a) sold in Australia for export : The value f.o.b. at which the sugar is sold to oversea buyers ; (b) shipped on consignment : The f.o.b. equivalent of the ruling price of such sugar in the London markets. Goods on which bounty or rebate is payable on export : The value of the goods in the principal markets of the Commonwealth less the amount of any bounty or rebate.

From 1st July, 1930. Wool (a) sold in Australia for export : The actual price paid for the wool plus the cost of all services incurred in placing the wool on board ship ; (b) shipped on consignment : The f.o.b. equivalent of ruling Australian prices.

From 1st July, 1932. Wheat (a) sold in Australia for export : The f.o.b. equivalent of the price at which the wheat was sold ; (b) shipped on consignment : The f.o.b. equivalent of the current selling price overseas.

From 1st April, 1934. Butter (a) sold in Australia for export : The f.o.b. equivalent of the price at which the butter was sold ; (b) shipped on consignment : The f.o.b. equivalent of the current ruling price overseas.

From 1st July, 1934. Flour (a) sold in Australia for export : The f.o.b. equivalent of the price at which the flour was sold ; (b) shipped on consignment : The f.o.b. equivalent of ruling Australian prices.

From 1st July, 1937, the following revised definition of f.o.b. values have been adopted for exports generally :—

(1) Goods sold to Oversea buyers before export : The f.o.b. equivalent of the price at which the goods were sold (e.g., as regards wool, the actual price paid by the overseas buyer, plus the cost of all services incurred by him in placing the wool on board ship).

(2) Goods shipped on consignment : The Australian f.o.b. equivalent of the current price offering for similar goods of Australian origin in the principal markets of the country to which the goods were despatched for sale (as regards wool, the f.o.b. equivalent of current price ruling in Australia will normally provide a sufficient approximation to the f.o.b. equivalent of the price ultimately received.

N.E.I. means " Not elsewhere included ".

Exports to Other States.—Goods transferred from South Australia to the other States of the Commonwealth for shipment to oversea countries are shown as exports from the State from which the goods were finally despatched and are not included in the South Australian details.

Ship's Stores.—Goods shipped as " ship's Stores " on board overseas ships are not included in exports. See Return No. 11.

* Including scoured wool converted into greasy.

† Excluding £2,592,016 half-share of profits on resale of wool by Imperial Government to which the growers were entitled.

‡ Interstate trade in wool, stocks, and wool used in local factories, are factors which cause differences between figures for oversea export and for actual production.

Note.—In compiling the above tables, the mean rainfall in each agricultural county has been first obtained from all available records within or on the borders of the county, and then weighted by the areas of the country to obtain the mean rainfall for each Division and the State. Counties Hamley and Young (Murray Mallee), Derby, Lytton and Taunton (Upper North), and Manchester, Hore-Ruthven, and York (Western) being non-agricultural counties, are excluded in compiling the average rainfall for this return.

(*a*) Gross value is defined as the value placed on recorded production at the wholesale price realized in the principal markets. Where primary products are absorbed at a local point or become raw material for a secondary industry, the value in each case is presumed to be the value at the principal market. Values include Bounties. (*b*) Marketing Costs.—Freight, commission, containers, insurance, etc. (*c*) Local value is gross value less marketing costs, being value at place of production. (*d*) Production costs such as stock feed, petrol, oil, seed costs, seed pickling, manures, spraying, dips, and power and water used in irrigation. (*e*) Production Costs.—Depreciation of machinery and implements (Agricultural, 10 per cent, pastoral and dairying, 5 per cent), and maintenance of buildings and fences (4 per cent on estimated present value of buildings, etc., used for farm or station purposes, excluding residences). (*f*) Net value is local value less production costs. (*g*) Local value is also accepted as net. (*h*) Gross value is also accepted as local and net for years prior to 1935-36. (*i*) Power, fuel, explosives, timber, etc.

FACTORIES.

NOTE.—The average number of persons employed means the average number over the whole year, except where otherwise specifically stated. Consequently in returns relating to employment and in the computation of average salaries and wages paid, production per employee, etc., the average number for the whole year is used.

From 1940-41, particulars for Electricity and Gas undertakings refer only to generation and exclude, for example, approximately 1,500 hands, £400,000 salaries and wages, and £700,000 value of production for distribution and transmission which were previously included.

a Owing to destruction of records by fire particulars for 1924 are not available.

b From 1st July, 1927, to 30th June, 1930, motor revenue has been credited direct to Main Roads Fund instead of General Revenue.

c Previously all motor vehicles had to be registered ; from 1930 only those in actual use on roads.

d Includes tramway omnibus operations, this and future years. *e* Tramways year ends 31st January. *f* Less amounts written off.
